

Ladies Craft & Connect - BYOP Sweater Pumpkin Workshop

Wed, Oct 22, 6-8pm

This will be a BYOP (bring your own project) night. You can bring something you're already working on OR bring supplies to join the pumpkin workshop! We'll walk you through creating some adorable pumpkin "pillows" to add to your autumn decor or give as a gift. All craftiness levels welcome!! We'll have coffee & tea, so feel free to bring snacks to share :) Please SIGN UP asap.

This is a BRING YOUR OWN supplies & tools workshop. A very small amount will be available, but not enough for everyone. And if you bring some to share, you get extra points :)

-pumpkin material: sweaters, socks, toques, long sleeve shirts

(a long sleeve sweater can make 2-3 little pumpkins per sleeve & 1-2 large/medium from the trunk)

Best/easiest is medium to tight knit, no buttons, zippers or gaps, not thick/chunky or super stretchy. Texture is great - waffle weave, cable knit etc. Flannel button shirts work but need extra stitching & velvet is not for beginners! *Bring a couple options & coordinating colours.*

-fibre fill stuffing (buy new or use pillows from home or thrift store)

-dental floss or embroidery thread (won't be seen, needs to be strong)

-twine, jute or coordinating yarn/embroidery thread

(needs to be strong, will create the creases & cover stems)

-large eye needle

-hot glue gun & glue sticks

Note: there will NOT be any extras of these supplies/tools available:

-scissors (sharp enough for fabric)

-pliers (optional but helpful, long nose or linesman style)

-corks, cinnamon sticks, pieces of stick or similar (for the stems)

-dried beans/popcorn (very optional. to add a bit of weight)
